The Colorado Association of School Boards (CASB) Foundation is dedicated to strengthening public education in Colorado by engaging educators and students and by supporting locally elected school boards as advocates for excellence. Through initiatives like the Student Leadership Strand and CASB Academies, we provide resources for vital training to assist educators, students, and school board members in navigating a complex educational landscape. With community support, the CASB Foundation can fund impactful educational experiences for students across Colorado, fostering empowered educators, strengthening local school boards, and building a resilient education system for all.
