Why Do We Need Policy?

"Under state law, one of the Board's most important duties is to adopt policies to govern the school district.

Colorado law requires local boards of education to adopt policies and prescribe rules and regulations necessary and proper for the efficient administration of the affairs of the district. C.R.S. 22-32-109(b).

Policies are principles adopted by the Board to chart a course of action. They tell what is wanted and may include why and how much. They are broad enough to indicate a line of action to be taken by the administration in meeting a number of day after day problems; they need to be narrow enough to give the administration clear guidance."
