

# CASB BRIEF - February 11 Vol. 25

## Policy Newsletter

### **SPECIAL POLICY UPDATE!**

#### *Title IX Discrimination and Harassment Policies—*

Title IX has gone through dramatic changes in the past year. Prior to August 2024, districts were following Title IX regulations of 2020, however, the Biden administration released updates to the regulations that took effect in August 2024, requiring districts to adopt new policy. On January 9, 2025, a federal judge ruled that the Biden administration's 2024 Title IX regulations exceeded the scope of Title IX and were therefore unconstitutional, which resulted in the regulations being vacated. **For districts, this means returning to the Title IX regulations of 2020.**

This SPU contains the Title IX grievance process, policy AC-R-3, plus many policies that reference Title IX "sexual harassment," which under the 2024 Title IX regulations was renamed "sex-based harassment." This change necessitated an update to cross-references in numerous policies—about ten policies. Another set of policies needed an updated nondiscrimination statement.

#### *Artificial Intelligence Parameters—*

This Special Policy Update also includes the student and staff "Use of Technology" policies. With technology, including artificial intelligence, changing rapidly these updates include parameters for when staff and students use Artificial Intelligence.
